

# Exit Ticket - Lesson 5

## OPTION 1

Name: \_\_\_\_\_

Draw two different places where water collects on a farm after it rains. Label each place. Why is it important for farmers that water collects in these places?

# Exit Ticket - Lesson 5\*

## OPTION 2

Name: \_\_\_\_\_

Draw a water collection map on a farm. It should include:

- A rain cloud (precipitation)
- Arrows showing water falling and then collecting in at least two different places (e.g., a river, a pond/dugout, or soaking into the soil where plants are).
- Label the collection points.
