## From Soil to Snack: Caring for Our Planet Every Step of the Way

1. What part of the food cycle was most important in your design? Why?

---

---

---

---

---

---

---

2. If you could redesign one step in the cycle to protect the Earth better, what would you change? Why?

---

---

---

---

---

---

---

3. What role do farmers play in keeping this food system sustainable? Explain.

---

---
